**Call for Reviewers /  
Examinateuses recherchées**

---

The purpose of peer review in the publication of nursing research is to ensure the advancement of nursing knowledge through critical analysis of submitted manuscripts. Through such analysis, constructive criticism is provided to the authors and publication recommendations are made to the editors. The quality of the manuscripts published in the *Canadian Journal of Nursing Research* is due, in large part, to the input of its reviewers.

Excellent reviewers possess the following attributes: high standards; the ability to identify key issues and defend a position taken on them, to see how a manuscript might add to the existing body of knowledge, and to communicate effectively with authors; a high degree of objectivity; and a willingness to learn from authors. The *CJNR* is seeking researchers who possess these attributes and who are interested in contributing to the advancement of nursing knowledge in this way.

If you are interested in being considered as a regular reviewer for the *CJNR*, please contact our office for more information. A reviewer's initiation package is issued to each new reviewer.

### ***Home Care***

**September 2001 (vol. 33, no. 2)**

The home has become the predominate site for the delivery of health care and supportive services in Canada. Many health-care institutions have closed and those that remain have been reduced in both size and range of functions. This shift in the site of care delivery is a result of the combined effects of medical, pharmaceutical, and technological advances, together with a political climate of fiscal restraint. This issue of the *CJNR* will focus on the implications of this major change for nursing practice, research, education, ethics, and politics. Theoretical, philosophical, and research-based manuscripts on the provision or receipt of nursing and other supportive services in the home are solicited.

**Guest Editor: Dr. Patricia McKeever**

**Submission Deadline: January 15, 2001**

### ***Women's Health***

**December 2001 (vol. 33, no. 3)**

Given that women make up over half the population, the importance of optimizing women's health goes without saying. This issue of *CJNR* will focus on all aspects of women's health. Research-based manuscripts related to women's health issues across the lifespan are being sought. These issues include the role of gender in health, social and economic aspects of women's health, the interaction of environment and occupation with women's health, and the health of indigenous, immigrant, and visible minority women. Among the topics being sought are: mental health, violence, sexuality — including lesbian health issues, alternative therapies, multiple pregnancies, genetic interventions and other reproductive health issues, and infectious diseases and cancers more common in women.

**Guest Editor: Dr. Anita Gagnon**

**Submission Deadline: April 15, 2001**

Please send manuscripts to:

The Editor, *Canadian Journal of Nursing Research*

McGill University School of Nursing

3506 University Street, Montreal, QC H3A 2A7 Canada

e-mail: [jtoti@po-box.mcgill.ca](mailto:jtoti@po-box.mcgill.ca)

## **St. Francis Xavier University**

### *Faculty Positions*

#### **Bachelor of Science in Nursing program**

The Department of Nursing at St. Francis Xavier University invites applications for five tenure-track positions at the rank of assistant or associate professor. The Nursing Department offers a four-year, integrated BScN program at two sites: Antigonish, NS, and Sydney, NS (the latter jointly with the University College of Cape Breton). It also offers an innovative post-diploma baccalaureate program by distance education using print-based and on-line technology. Three of the appointments will be made at the Antigonish site and two at the Sydney site beginning July 1, 2001, or September 1, 2001. Opportunity is available to teach in the on-campus program and in the distance-education program. Salary and rank will be commensurate with qualifications and experience.

Applicants should have a Master's degree in Nursing, a PhD (or be near completion), teaching experience at the undergraduate level, a strong nursing practice focus, and evidence of a developing research and publication record, and be eligible for registration with the RNANS. The substantive areas of interest to the Department include: mental health/psychiatric nursing, comprehensive health assessment including physical assessment skills, maternal-child, pediatric and adult health.

Research and educational programs in the Department of Nursing are supported by strong relationships with a broad range of clinical and community agencies in both rural and urban settings. Faculty research is guided by the concepts of health promotion, self-care and caring.

Interested candidates, please submit a curriculum vitae, a copy of current registration, and the names and contact numbers of three referees, including most recent employer, to:

Angela Gillis, PhD, RN  
Chair, Department of Nursing  
St. Francis Xavier University  
Box 5000  
Antigonish, N.S. B2G 2W5  
Fax: (902) 867-2322

*The deadline for initial consideration of applications is January 15, 2001, but further applications will be considered until the positions are filled.*

*In accordance with Canadian immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada. St. Francis Xavier University is committed to employment equity.*

## **St. Francis Xavier University**

### *Faculty Positions*

#### **Bachelor of Science in Nursing program**

The Department of Nursing at St. Francis Xavier University invites applications for one two-year limited-term position, one 12-month limited-term position and two 10-month limited-term positions, subject to budgetary approval. The Nursing Department offers a four-year, integrated BScN program at two sites: Antigonish, NS, and Sydney, NS (the latter jointly with the University College of Cape Breton). It also offers an innovative post-diploma baccalaureate program by distance education using print-based and on-line technology. All appointments will be made at the Antigonish site beginning September 1, 2001. Salary and rank will be commensurate with qualifications and experience.

Applicants should have a Master's degree in Nursing, a PhD (or be near completion), teaching experience at the undergraduate level, a strong nursing practice focus, and evidence of a developing research and publication record, and be eligible for registration with the RNANS. The substantive areas of interest to the Department include: mental health/psychiatric nursing, community health, health promotion, and maternal-child nursing.

Research and educational programs in the Department of Nursing are supported by strong relationships with a broad range of clinical and community agencies in both rural and urban settings. Faculty research is guided by the concepts of health promotion, self-care and caring.

Interested candidates, please submit a curriculum vitae, a copy of current registration, and the names and contact numbers of three referees, including most recent employer, to:

Angela Gillis, PhD, RN  
Chair, Department of Nursing  
St. Francis Xavier University  
Box 5000  
Antigonish, N.S. B2G 2W5  
Fax: (902) 867-2322

*The deadline for initial consideration of applications is January 15, 2001, but further applications will be considered until the positions are filled.*

*In accordance with Canadian immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada. St. Francis Xavier University is committed to employment equity.*

## SCHOOL of NURSING FACULTY of HEALTH SCIENCES

The Faculty of Health Sciences at The University of Western Ontario invites applications for three (3) tenure-track positions in the **School of Nursing**. The successful candidates will conduct a program of research and contribute to graduate and undergraduate educational programs. An emphasis on childbearing and childrearing families, management of acute health problems or nursing administration and health services delivery is welcome. The positions require an earned doctorate (or doctorate near completion) in nursing or a related field, evidence of a focussed program of research and publication, and eligibility for a certificate of registration with the College of Nurses of Ontario.

The School of Nursing is one of 5 schools in the research-oriented Faculty of Health Sciences, where both discipline-specific and interdisciplinary research are encouraged. Start-up research funds and the support of the Nursing Research Unit are available. University-wide programs to enhance teaching are offered regularly.

The School is proud of the outstanding success of BScN and MScN graduates, and is developing a PhD program in nursing administration and health services delivery, nursing education, and health promotion. Educational and research programs are supported by excellent relationships with hospitals and community agencies.

Interested applicants should send a curriculum vitae, documents supporting qualifications, and the names, addresses, and contact numbers of three referees to:

Dr. Angelo Belcastro, Dean  
Faculty of Health Sciences  
Room H125, Health Sciences Addition  
The University of Western Ontario  
London, Ontario N6A 5C1  
<http://www.uwo.ca/fhs/>

The deadline for receipt of applications is February 28, 2001.

*Positions are subject to budget approval. In accordance with Canadian Immigration requirements, this advertisement is directed to Canadian citizens and Permanent Residents. The University of Western Ontario is committed to employment equity, welcomes diversity in the workplace, and encourages applications from all qualified individuals including women, members of visible minorities, aboriginal persons, and persons with disabilities.*

# McGill University

## School of Nursing

*Leading the way...*

### *A Unique Philosophy*

- Internationally recognized for its unique approach to nursing and health promotion

### *A Unique University*

- World-renowned McGill is one of Canada's oldest universities, located in downtown Montreal

### *A Unique City*

- Montreal is a diverse multicultural metropolis with European flair

---

### PhD (offered jointly with the Université de Montréal)

- Designed to train researchers and prepare leaders in the profession and in the health-care system

### Master of Science

- Open to nurses holding a baccalaureate degree and to baccalaureate graduates with no previous preparation in nursing (generic master's)
- Prepares clinicians and researchers to play a crucial role in shaping health care

### Bachelor of Science in Nursing

- Prepares nurses to deal effectively with complex health issues relating to the individual, the family, and the community

### Bachelor of Nursing

- Open to registered nurses from a college or other diploma nursing program
- Offered on a full-time or part-time basis; prepares nurses for practice within an increasingly complex health-care system

## ***Information for Authors***

The *Canadian Journal of Nursing Research* is a quarterly journal. Its primary mandate is to publish nursing research that develops basic knowledge for the discipline and examines the application of the knowledge in practice. It also accepts research related to education and history and welcomes methodological, theory, and review papers that advance nursing science. Letters or commentaries about published articles are encouraged.

**Procedure:** Three double-spaced typewritten copies of the manuscript on 8 1/2" x 11" paper are required. Authors are requested not to put their name in the body of the text, which will be submitted for blind review. Only unpublished manuscripts are accepted. A written statement assigning copyright of the manuscript to the *Canadian Journal of Nursing Research* must accompany all submissions to the Journal. Manuscripts are sent to: The Editor, *Canadian Journal of Nursing Research*, School of Nursing, McGill University, 3506 University Street, Montreal, QC H3A 2A7. E-mail: jtoti@po-box.mcgill.ca

### **Manuscripts**

All manuscripts must follow the fourth edition of the *Publication Manual of the American Psychological Association*. Research articles must follow the APA format for presentation of the literature review, research questions and hypotheses, method, and discussion. All articles must adhere to APA guidelines for references, tables, and figures. Footnotes should not be used.

**Title page:** This should include author name(s), degrees, positions and affiliations, information on financial assistance, acknowledgements, and contact information.

**Abstract:** Research articles must include a summary of 100–150 words on the purpose, design, sample, findings, and implications of the research. Theory and review papers must include a statement of the principal issue(s), the framework for analysis, and a summary of the argument.

**Text:** The text should not exceed 20 double-spaced typed pages including references, tables, and figures (which are placed at the end of the text). Articles must be written in English.

**References:** The references are listed in alphabetical order, double-spaced, and placed immediately following the text. Author names and journal citations must be spelled out in full.

**Tables and figures:** Tables and figures should appear only when absolutely necessary. They must be self-explanatory and summarize relevant information without duplicating the content of the text. Each table must include a short title, omit abbreviations, and be typed on a separate page. Figures must be in camera-ready form.

**Review process and publication information:** The *Canadian Journal of Nursing Research* is a peer-reviewed journal. Manuscripts are submitted to two reviewers for blind review. The first author will be notified following the review process, which takes approximately 12 weeks to complete.

**Electronic copy:** Authors must provide satisfactory electronic files of the accepted final version of the manuscript.

## **Renseignements à l'intention des auteurs**

La *Revue canadienne de recherche en sciences infirmières* est publiée quatre fois par année. Son mandat est de diffuser la recherche en sciences infirmières qui a trait au développement des connaissances dans la discipline et à l'analyse de la mise en pratique de ces connaissances. La revue accepte également des articles de recherche liés à l'éducation, à l'histoire de même que des articles liés à la méthodologie, la théorie et l'analyse critique qui favorisent le développement des sciences infirmières. Nous vous invitons à nous faire parvenir également vos commentaires sur les articles publiés.

**Modalités :** Les textes doivent être soumis en trois exemplaires, être dactylographiés à double interligne sur des feuilles 216 mm x 279 mm et être adressés à la rédactrice en chef, à la *Revue canadienne de recherche en sciences infirmières*, Université McGill, École des sciences infirmières, 3506, rue University, Montréal, QC H3A 2A7. Courriel: [jtoti@po-box.mcgill.ca](mailto:jtoti@po-box.mcgill.ca) Il est entendu que les articles soumis n'ont pas été simultanément présentés à d'autres revues. Veuillez également inclure, avec la soumission, une déclaration de propriété et de cession de droits d'auteurs. Finalement, afin de garder l'anonymat lors du processus de révision, veuillez ne pas inclure les noms des auteurs dans le texte.

### **Manuscrits**

La présentation du manuscrit doit respecter les normes du *Publication Manual of the American Psychological Association*, 4<sup>e</sup> édition, 1994. Notamment, les figures, tableaux, illustrations et références doivent être présentés selon les normes prescrites. Il est suggéré de ne pas avoir recours aux notes de bas de page.

**Page titre :** Pour assurer la lecture anonyme des textes soumis, seule la page titre du manuscrit comprendra le nom, l'adresse et l'affiliation de(s) auteur(s), les diplômes obtenus ainsi que l'aide financière reçue et les remerciements.

**Résumé :** Un résumé d'environ 100 à 150 mots chacun doit précéder le texte. Ce résumé devrait comprendre l'objectif, la méthode, les résultats et les retombées de la recherche. Les manuscrits qui concernent la théorie et les analyses critiques doivent inclure une identification des objectifs principaux, le cadre conceptuel utilisé pour l'analyse des données et un résumé de la discussion.

**Texte :** La longueur totale d'un manuscrit, incluant les tableaux, les figures et les références, ne doit pas dépasser 20 pages, dactylographiées à double interligne. Les articles doivent être rédigés en anglais.

**Références :** Les références doivent paraître en ordre alphabétique, à double interligne et faire suite au texte. Les noms des auteurs de même que les citations de revues doivent être écrits au long.

**Tableaux et schémas :** Les tableaux et schémas doivent paraître seulement si nécessaire. Ils doivent résumer des données pertinentes sans redire le contenu du texte. Chaque tableau doit comprendre un titre, ne pas comprendre d'abréviations et être dactylographié sur une page à part. Vous devez remettre les originaux des schémas dessinés à l'encre de Chine et prêts à être photographiés.

**Examen des manuscrits et renseignements relatifs à la publication :** Lorsqu'un manuscrit est soumis pour des fins de publication à la *Revue canadienne de recherche en sciences infirmières*, le comité de rédaction entame le processus de lecture : il envoie à un minimum de deux réviseurs, spécialistes du sujet dont traite le texte, un exemplaire anonyme du manuscrit ainsi que la grille d'évaluation des manuscrits. Sur réception des évaluations des réviseurs, le comité de rédaction décide si le texte peut être publié et en informe l'auteur responsable en lui faisant part des évaluations des réviseurs. Ce processus nécessite habituellement douze semaines. Si la décision est favorable, le comité peut proposer des corrections que l'(les) auteur(s) devra(ont) effectuer avant que le texte ne soit publié.

**Copie électronique :** Les auteurs doivent remettre un exemplaire de leur article sur disquette, suite à l'acceptation finale de l'article.
