

McGill University School of Nursing

seeks candidates for full-time tenure-track positions involving teaching in graduate and undergraduate programs. Candidates must hold an earned doctorate in nursing or related discipline, and show evidence of independent research or excellent scholarly potential. Candidates will be expected to conduct a strong program of funded research in their own substantive area of interest. The candidate must also be eligible for licensure by the Order of Nurses of Quebec. Opportunities for cross appointments in 5 major teaching hospitals are available. Rank and salary commensurate with qualifications.

In accordance with Canadian immigration regulations, this advertisement is directed to Canadian citizens and permanent residents. McGill University is committed to equity in employment.

These positions are subject to final budgetary approval.

Send curriculum vitae and names of three references to:

Dr. Barbara Anne Gooding, Acting Director

University of Windsor School of Nursing Programs

Master of Science in Nursing

This program prepares graduates for advanced practice in one of two areas of concentration:

Health promotion and illness prevention

Human response and adaptation to alterations in health

This program is especially designed to meet the needs of employed baccalaureate nurses.

Basic Baccalaureate Program (4 years)

This program is for students who are secondary school graduates, graduates with degrees in other disciplines, and qualified adult students who wish to pursue a career in nursing.

Post Diploma Bachelor of Science in Nursing (2 years)

This program is designed to provide the Registered Nurse with the additional knowledge and skills required to expand his/her scope of practice.

University of Windsor School of Nursing

401 Sunset Avenue, Windsor, Ontario
(519) 253-4232, Ext. 2258

University of Alberta Edmonton

The Faculty of Nursing invites applications for the **Master of Nursing (MN)** and **PhD in Nursing** programs.

The aim of the MN Program is to prepare nurses to function as advanced level practitioners in hospital, community and/or educational settings. A thesis is required of all students. In conjunction with the MN program, the following are also available:

- Certificate in Nurse Midwifery
- Certificate in Advanced Neonatal Nursing
- Minor in Nursing Administration

The PhD in Nursing Program is now the first funded program of its kind in Canada. The program prepares nurses for leadership roles in practice, education, and research, as well as advancing nursing knowledge through identification of nursing phenomena and the development and testing of nursing theory.

requires a

Program Coordinator

for

Program in Bachelor of Science in Mental Health

This four-year program is expected to be offered for the first time in September, 1994. The graduates will be eligible to write qualifying examinations for registration as a Psychiatric Nurse in Manitoba. The Coordinator will be responsible for leadership, development, direction and administration of the program, and coordination with other programs offered by the University. The program could eventually have approximately 200 students taking courses on campus or by distance education. The University is considering amalgamation of this program with others to form a school within the University structure. The launch of this new program and the position of Coordinator are subject to University and government approval, including budget approval.

Qualifications:

1. earned doctorate degree
2. previous academic administration experience in a university
3. one advanced degree must be in psychiatric nursing or a related field
4. experience in research and advanced practice
5. eligible for licensure as an R.P.N. or as an R.N. in Manitoba
6. experience in teaching at a baccalaureate level

Applications will be accepted until the position is filled. It is hoped that the Coordinator can commence work in March/April 1994, or soon thereafter. It is the University's preference that this be a tenure track position, although circumstances may dictate an initial three-year term. Rank and salary will be commensurate with experience (Assistant Professor \$34,978-\$54,303, Associate Professor \$45,090-\$69,322, Professor \$57,386-\$84,211, currently under negotiation.)

Send curriculum vitae and three references to:

In accordance with Canadian immigration regulations, this advertisement is directed primarily to Canadian citizens and permanent residents. Both women and men are encouraged to reply.

Information for Authors

The Canadian Journal of Nursing Research is a quarterly journal. Its primary mandate is to publish nursing research that develops basic knowledge for the discipline and examines the application of the knowledge in practice. It also accepts research related to education and history and welcomes methodological, theory and review papers that advance nursing science. Letters or commentaries about published articles are encouraged.

Procedure: Three double-spaced typewritten copies of the manuscript on 8½ x 11" paper are required. Articles may be written in French or English. Authors are requested not to put their name in the body of the text, which will be submitted for blind review. Only unpublished manuscripts are accepted. A written statement assigning copyright of the manuscript to *The Canadian Journal of Nursing Research* must accompany all submissions to the journal. Manuscripts are sent to: The Editor, *The Canadian Journal of Nursing Research*, McGill University, 3506 University Street, Montreal, Qc H3A 2A7.

Manuscripts

All manuscripts must follow the latest edition of the *Publication Manual of the American Psychological Association*. Research articles must follow the APA format for presentation of the literature review, research questions and hypotheses, method, and discussion. All articles must adhere to APA guidelines for references, tables and figures. Do not use footnotes.

Title page: This should include author(s) name, degrees, position, information on financial assistance, acknowledgements, requests for reprints, address, and present affiliation.

Abstract: Research articles must include a summary of 100-150 words containing information on the purpose, design, sample, findings, and implications. Theory and review papers must include a statement of the principal issue(s), the framework for analysis, and summary of the argument.

Text: The text should not exceed 15 double spaced typed pages. References, tables, and figures should follow the text.

References: The references are listed in alphabetical order, double spaced and placed immediately following text. Author names and journal citations must be spelled out in full.

Tables and Figures: Tables and figures should only appear when absolutely necessary. They must be self explanatory and summarize relevant information without duplicating the content of the text. Each table must include a short title, omit abbreviations and be typed on a separate page. Figures must be in camera-ready form.

Review process and publication information: *The Canadian Journal of Nursing Research* is a peer-reviewed journal. Manuscripts are submitted to two reviewers for blind review. The first author will be notified following the review process which takes 10 weeks to complete.

Electronic copy: Authors must provide satisfactory electronic files of the accepted final version of the manuscript.

Renseignements à l'intention des auteurs

La revue canadienne de recherche en sciences infirmières paraît quatre fois par année. Son mandat est de publier la recherche en sciences infirmières qui développe les connaissances de base dans la discipline et qui analyse la mise en pratique de ces connaissances. La revue accepte aussi des articles de recherche reliés à l'enseignement, l'histoire, et accueille des articles ayant trait à la méthodologie, la théorie, et l'analyse qui promouvoit le développement des sciences infirmières. Les soumissions de lettres et de commentaires sur des articles publiés sont aussi encouragées.

Modalités: Veuillez envoyer trois exemplaires de votre article dactylographié à double interligne sur des feuilles de papier de 216mm x 279mm. Il est entendu que les articles soumis n'ont pas été simultanément présentés à d'autres revues. Veuillez inclure avec votre article une déclaration de propriété et de cession de droit d'auteur.

Veuillez adresser vos manuscrits à la rédactrice en chef, *La revue canadienne de recherche en sciences infirmières*, École des sciences infirmières, Université McGill, 3506 rue University, Montréal, QC H3A 2A7.

Manuscrits

Tous les manuscrits doivent se conformer à la plus récente édition du *Publication Manual of the American Psychological Association*. Les articles de recherche doivent suivre les consignes énoncées dans le "APA" en guise de présentation de la littérature, des questions de recherche et d'hypothèses, de la méthode, et de la discussion. Tous les articles doivent obéir au manuel "APA" pour les références, les tableaux, et les schémas. N'employez pas de notes au bas de la page.

Page titre: Elle devrait inclure le nom, l'adresse et l'affiliation de l'auteur ou des auteurs, les diplômes obtenus, information sur l'aide financière obtenue, remerciements, demande de copies.

Résumé: Les articles de recherche doivent être accompagnés d'un résumé de 100 à 150 mots, incluant l'objet de la recherche, la conception, l'échantillon, les résultats et les implications. Les manuscrits de théories et de critiques doivent inclure une déclaration des arguments principaux, la structure d'analyse, et un résumé de la discussion.

Texte: La longueur acceptable d'un article n'excède plus que 15 pages. Les articles peuvent être rédigés soit en anglais, soit en français.

Références: Les références doivent paraître en ordre alphabétique, à double interligne, et doivent suivre le texte. Les noms d'auteurs et les citations de revues doivent être épeler entièrement.

Tableaux et schémas: Les tableaux et schémas doivent paraître seulement si nécessaire. Ils doivent résumer des informations pertinentes sans redire le contenu du texte. Chaque tableau doit inclure un court titre, opprimer les abréviations et doit être dactylographié sur une page à part. Veuillez remettre les originaux des schémas, qui doivent être dessinés à l'encre de Chine et prêts à photographier.

Examen des manuscrits et renseignements relatifs à la publication: Les manuscrits présentés à la revue sont évalués de façon anonyme par deux lectrices. À la réception du manuscrit original, l'auteur est avisé que le Comité de rédaction prendra une décision au sujet de la publication de son article dans les dix semaines.

Copie électronique: Les auteurs doivent remettre une copie acceptable de l'article sur disquette de l'acceptation finale de l'article.

Maîtrise ès sciences en sciences infirmières
