## Researcher in Nursing

The Sisters of Charity of Ottawa Health Service is a 1,029-bed, bilingual, teaching health care centre specializing in long-term, chronic, rehabilitation and palliative care. It has an established research infrastructure and is affiliated with the University of Ottawa. The priority of the Centre is to build a solid research base focused on clinical issues significant for its clientele.

The Nursing Division, committed to promoting nursing excellence in clinically based research to improve care for the chronically ill and disabled population, invites applications for the position of Researcher in Nursing. The successful candidate's responsibilities are to develop, maintain and evaluate a nursing research program to improve the health of the geriatric population and of clientele with chronic illnesses along the health continuum, within the scope of Nursing Practice.

The successful candidate will participate in educational programs in the clinical, undergraduate and continuing education areas and will qualify to hold a joint appointment with the School of Nursing, Faculty of Health Science, University of Ottawa.

Reporting to the VP Nursing, the successful candidate will be a member of the Clinical Epidemiology Unit and will work in cooperation with the Directors of Research at Élisabeth Bruyère Health Centre and Saint-Vincent Hospital. He or she will establish liaisons with researchers and organizations related to nursing and health research at the local, national and international levels for the purpose of promoting change in the practice of nursing.

The successful candidate will:

- possess a PhD in Nursing or a relevant health field (applications from candidates completing a doctoral degree will be considered)
- be actively engaged in independent and collaborative research
- have recent clinical experience in aging, chronic care and/or rehabilitation
- be able to conduct data analysis
- have demonstrated writing skills (grant proposals, articles, etc.)
- hold a current certificate of competence from the College of Nurses of Ontario
- have active knowledge of English and French

Qualified applicants are invited to submit a curriculum vitae and the names of three referees to the Vice-President Nursing, Élisabeth Bruyère Health Centre, 43 Bruyère Street, Ottawa, Ontario K1N 5C8. Fax:(613)562-6367

# **University of Windsor School of Nursing Programs**

## **Master of Science in Nursing**

This program prepares graduates for advanced practice in one of two areas of concentration:

*Health promotion and illness prevention*

*Human response and adaptation to alterations in health*

This program is especially designed to meet the needs of employed baccalaureate nurses.

## **Basic Baccalaureate Program (4 years)**

This program is for students who are secondary school graduates, graduates with degrees in other disciplines, and qualified adult students who wish to pursue a career in nursing.

## **Post Diploma Bachelor of Science in Nursing (2 years)**

This program is designed to provide the Registered Nurse with the additional knowledge and skills required to expand his/her scope of practice.

## **CALL FOR ABSTRACTS**

Broadening Our Vision:  
*Class & Cultural Issues  
in Women's Health*

11th conference of  
The Society for Menstrual Cycle Research

June 2-4, 1995  
Montreal, Quebec

This interdisciplinary program (psychology, sociology, anthropology, endocrinology, etc.) will interest anyone concerned about women's health as it relates to the menstrual cycle. Papers may address aspects of pre-menstrual syndrome, dysmenorrhea, menorrhagia, menarche, menopause, etc. We are planning for simultaneous translation.

## Information for Authors

*The Canadian Journal of Nursing Research* is a quarterly journal. Its primary mandate is to publish nursing research that develops basic knowledge for the discipline and examines the application of the knowledge in practice. It also accepts research related to education and history and welcomes methodological, theory and review papers that advance nursing science. Letters or commentaries about published articles are encouraged.

**Procedure:** Three double-spaced typewritten copies of the manuscript on 8½ x 11" paper are required. Articles may be written in French or English. Authors are requested not to put their name in the body of the text, which will be submitted for blind review. Only unpublished manuscripts are accepted. A written statement assigning copyright of the manuscript to *The Canadian Journal of Nursing Research* must accompany all submissions to the journal. Manuscripts are sent to: The Editor, *The Canadian Journal of Nursing Research*, McGill University, 3506 University Street, Montreal, QC H3A 2A7.

### Manuscripts

All manuscripts must follow the latest edition of the *Publication Manual of the American Psychological Association*. Research articles must follow the APA format for presentation of the literature review, research questions and hypotheses, method, and discussion. All articles must adhere to APA guidelines for references, tables and figures. Do not use footnotes.

**Title page:** This should include author(s) name, degrees, position, information on financial assistance, acknowledgements, requests for reprints, address, and present affiliation.

**Abstract:** Research articles must include a summary of 100-150 words containing information on the purpose, design, sample, findings, and implications. Theory and review papers must include a statement of the principal issue(s), the framework for analysis, and summary of the argument.

**Text:** The text should not exceed 15 double spaced typed pages. References, tables, and figures should follow the text.

**References:** The references are listed in alphabetical order, double spaced and placed immediately following text. Author names and journal citations must be spelled out in full.

**Tables and Figures:** Tables and figures should only appear when absolutely necessary. They must be self explanatory and summarize relevant information without duplicating the content of the text. Each table must include a short title, omit abbreviations and be typed on a separate page. Figures must be in camera-ready form.

**Review process and publication information:** *The Canadian Journal of Nursing Research* is a peer-reviewed journal. Manuscripts are submitted to two reviewers for blind review. The first author will be notified following the review process which takes 12 weeks to complete.

**Electronic copy:** Authors must provide satisfactory electronic files of the accepted final version of the manuscript.

## Renseignements à l'intention des auteurs

*La revue canadienne de recherche en sciences infirmières* paraît quatre fois par année. Son mandat est de publier la recherche en sciences infirmières qui développe les connaissances de base dans la discipline et qui analyse la mise en pratique de ces connaissances. La revue accepte aussi des articles de recherche reliés à l'enseignement, l'histoire, et accueille des articles ayant trait à la méthodologie, la théorie, et l'analyse qui promouvoit le développement des sciences infirmières. Les soumissions de lettres et de commentaires sur des articles publiés sont aussi encouragées.

**Modalités:** Veuillez envoyer trois exemplaires de votre article dactylographié à double interligne sur des feuilles de papier de 216mm x 279mm. Il est entendu que les articles soumis n'ont pas été simultanément présentés à d'autres revues. Veuillez inclure avec votre article une déclaration de propriété et de cession de droit d'auteur.

Veuillez adresser vos manuscrits à la rédactrice en chef, *La revue canadienne de recherche en sciences infirmières*, École des sciences infirmières, Université McGill, 3506 rue University, Montréal, QC H3A 2A7.

### Manuscrits

Tous les manuscrits doivent se conformer à la plus récente édition du *Publication Manual of the American Psychological Association*. Les articles de recherche doivent suivre les consignes énoncées dans le "APA" en guise de présentation de la littérature, des questions de recherche et d'hypothèses, de la méthode, et de la discussion. Tous les articles doivent obéir au manuel "APA" pour les références, les tableaux, et les schémas. N'employez pas de notes au bas de la page.

**Page titre:** Elle devrait inclure le nom, l'adresse et l'affiliation de l'auteur ou des auteurs, les diplômes obtenus, information sur l'aide financière obtenue, remerciements, demande de copies.

**Résumé:** Les articles de recherche doivent être accompagnés d'un résumé de 100 à 150 mots, incluant l'objet de la recherche, la conception, l'échantillon, les résultats et les implications. Les manuscrits de théories et de critiques doivent inclure une déclaration des arguments principaux, la structure d'analyse, et un résumé de la discussion.

**Texte:** La longueur acceptable d'un article n'excède plus que 15 pages. Les articles peuvent être rédigés soit en anglais, soit en français.

**Références:** Les références doivent paraître en ordre alphabétique, à double interligne, et doivent suivre le texte. Les noms d'auteurs et les citations de revues doivent être épeler entièrement.

**Tableaux et schémas:** Les tableaux et schémas doivent paraître seulement si nécessaire. Ils doivent résumer des informations pertinentes sans redire le contenu du texte. Chaque tableau doit inclure un court titre, opprimer les abréviations et doit être dactylographié sur une page à part. Veuillez remettre les originaux des schémas, qui doivent être dessinés à l'encre de Chine et prêts à photographier.

**Examen des manuscrits et renseignements relatifs à la publication:** Les manuscrits présentés à la revue sont évalués de façon anonyme par deux lectrices. A la réception du manuscrit original, l'auteur est avisé que le Comité de rédaction prendra une décision au sujet de la publication de son article dans les douze semaines.

**Copie électronique:** Les auteurs doivent remettre une copie acceptable de l'article sur disquette de l'acceptation finale de l'article.

*The Canadian Journal of Nursing Research*  
*Revue canadienne de recherche en sciences infirmières*

*The Canadian Journal of Nursing Research* provides a forum in Canada for the publication of research and scholarly articles relevant to nursing and health. You and your agency are invited to subscribe to this journal.

You also are invited to submit articles to *The Canadian Journal of Nursing Research*. CJNR publishes articles on clinical research, methodological issues, education research, historical research as well as theory and position papers that advance nursing knowledge. Information for authors and the criteria for evaluating articles can be obtained from the Circulation Manager.

## Graduate Programs in Nursing

Master of Science (with Thesis)

Master of Science (Applied)

These programs are designed to prepare clinicians and researchers for the role of nursing within the health care delivery system. Preparation for the teaching of nursing or the management of nursing service is also offered.

### **Admission requirements**

Either a Baccalaureate degree in Nursing comparable to B.Sc.(N) or B.N. from McGill; or a Baccalaureate degree comparable to B.A. or B.Sc. offered at McGill (for those with no nursing preparation).

### **Ph.D. Program in Nursing**

In 1993, the School of Nursing of McGill University and the Faculté de sciences infirmières of the Université de Montréal established a joint Ph.D. program in Nursing. This program combines the resources of both universities in order to respond to the diverse and complex challenges of the discipline of nursing.

The program is designed to prepare scientists who will contribute to the advancement of knowledge and theory development in the field of nursing and who will assume leadership roles both in the profession and in the health care system.

### **Admission requirements**

Applicants must hold a Master of Science in Nursing or equivalent degree with a G.P.A. of 3.3 or high B standing. Each applicant must demonstrate research ability and be accepted by a faculty member who agrees to serve as thesis advisor. The candidate must submit a letter outlining his/her proposed research as well as his/her future career goals. Admission is based on assessment of professional experience, previous academic work, letters of reference and GRE. Applicants must hold nursing registration in Québec or be eligible to obtain registration and have sufficient working knowledge in both French and English.
