

Call for Papers

Developing Family

Summer 1997 (vol. 29, no. 2)

This issue will focus on the knowledge needed to provide effective care to contemporary families during the reproductive experience. Preference will be given to completed research that provides new knowledge to guide practitioners caring for families during conception, pregnancy, birth, and postpartum. Both qualitative and quantitative work will be welcome, including research that replicates, refines, or expands previous studies.

Submission Deadline: February 15, 1997

Values and Decision Making

Fall 1997 (vol. 29, no. 3)

The aim of this issue is to make a contribution to the rapidly expanding body of knowledge on decision making in health care at the client, clinician, and policy levels. Topics with potential for enhancing the effectiveness of decision-supporting interventions are of particular interest. Qualitative and quantitative research reports, thought pieces on the state of the science, and reviews of decision-making studies are invited.

Guest Editor: Dr. Annette O'Connor

Submission Deadline: March 15, 1997

Please send manuscripts to:

Articles à publier

La croissance de la famille

Été 1997 (vol.29, no. 2)

Ce numéro traitera des connaissances exigées pour procurer des soins efficaces aux familles d'aujourd'hui pendant le processus de procréation. La préférence sera donnée aux recherches approfondies procurant de nouvelles connaissances pour guider les praticiens qui dispensent les soins aux familles pendant la conception, la grossesse, la naissance et la post-natalité. Les travaux qualitative et quantitative seront les bienvenus, tout comme ceux qui reproduisent, affinent ou développent les études précédentes.

Date limite pour les soumissions : le 15 février 1997

Les valeurs et la prise de décision

Automne 1997 (vol.29, no. 3)

Le but de ce numéro thématique est de contribuer au développement en plein essor, d'un corps de connaissances relatives à la prise de décision du client, du clinicien et des politiques en matière de soins de santé. Les thèmes susceptibles de promouvoir l'efficacité de la décision et d'appuyer les interventions représentent un intérêt particulier. Les rapports de recherche qualitative ou quantitative, les articles de fond sur l'état des connaissances, et les analyses critiques de la littérature pertinente sont les bienvenues.

Rédactrice invitée: D^{re} Annette O'Connor

Date limite pour les soumissions: le 15 mars 1997

Prière d'envoyer les manuscrits à :

McGill University

School of Nursing

Leading the way...

A Unique Philosophy

- Internationally recognized for its unique approach to nursing and health promotion

A Unique University

- World-renowned McGill is one of Canada's oldest universities, located in downtown Montreal

A Unique City

- Montreal is a diverse, multicultural metropolis with European flair
-

Ph.D. (offered jointly with the Université de Montréal)

- Designed to train researchers and prepare leaders in the profession and in the health-care system

Master of Science

- Open to nurses holding a baccalaureate degree and to baccalaureate graduates with no previous preparation in nursing (generic master's)
- Prepares clinicians and researchers to play a crucial role in shaping health care

Bachelor of Science in Nursing

- Prepares nurses to deal effectively with complex health issues relating to the individual, the family, and the community

McMaster University School of Nursing Programs

50 years of excellence

The BScN Program

The BScN Program promotes the development of nursing as a caring, client-centred, scientifically based profession. With an emphasis on problem-based, small-group, self-directed learning, the program provides a general baccalaureate education in nursing for the preparation of professional nurses who will practice in a variety of health-care settings.

The following streams are offered:

Basic Stream – 4 years

Diploma RN Stream – 2 full calendar years

(part-time studies are also available in both streams)

Diploma RN/Nurse Practitioner Stream

Other offerings include:

Nursing Leadership/Management Program

(previously administered and currently

endorsed by the Canadian Nurses Association)

Northern Nursing Programs offered in conjunction
with Health Canada, Medical Services Branch

Adult Oncology Program

Pediatric Oncology Program

Graduate Education opportunities include a

Clinical Health Sciences Masters and PhD Program

(Nursing), which began in the fall of 1994

Opportunities are available in both full- and part-time services

For further information, contact:

McMaster University, School of Nursing

DALHOUSIE UNIVERSITY

BACHELOR OF SCIENCE (NURSING)

A HEALTH-CARE SYSTEM IN TRANSITION CALLS FOR NURSES WHO CAN EFFECTIVELY INFLUENCE HEALTH-CARE DELIVERY.

Today's health-care system requires BScN graduates who recognize that the traditional roles of nurses are changing.

THE BACHELOR OF SCIENCE (NURSING) is a four-year program that prepares graduates to respond to health and illness needs of people in a variety of health-care settings, including hospitals, homes, schools, and communities. The School of Nursing provides Nursing education that is accessible and relevant to students' individual needs. Students study at sites in Halifax or Yarmouth, Nova Scotia.

ADVANCED STANDING students who bring sufficient post-secondary education to the program can achieve their degree in three years.

POST-DIPLOMA students can complete the BScN/RN in two years of full-time study plus two part-time spring sessions, or work at their own pace part time.

THE PERINATAL EDUCATION PARTNERSHIP PROJECT, OR PEPP, offers five courses from the BScN/RN curriculum in a perinatal focus using innovative distance technology and interactive learning approaches.

CLINICAL MAJOR OPTIONS similar in design to PEPP are being developed for September 1997 registration. Nurses may choose courses from the curriculum which focus on the areas of clinical practice that interest them most.

For more information about the BScN program at the Dalhousie University School of Nursing, please contact:

University of Windsor

SCHOOL OF NURSING PROGRAMS

Master of Science Degree in Nursing

This program prepares graduates for advanced practice in one of two areas of concentration:

- Health promotion and illness prevention
- Human response and adaptations to alterations in health.

This program is especially designed to meet the needs of employed baccalaureate nurses.

Generic Baccalaureate Program

This program is 4 years in length and is designed for students who are secondary school graduates, graduates with degrees in other disciplines, and qualified adult students who wish to pursue a career in nursing.

Post Diploma Bachelor of Science in Nursing

This program is 2 years in length and is designed to provide the registered nurse with the additional knowledge and skills required to expand his/her scope of practice.

Primary Care Nurse Practitioner Certificate

This program is 12 months in length and is designed for baccalaureate prepared nurses. It prepares nurses to provide comprehensive and continuous care to clients across the health continuum and throughout the lifespan.

Integrated B.Sc.N. and Nurse Practitioner Certificate

This program is designed for diploma prepared nurses. It combines the degree program for Registered Nurses with the certificate program.

For further information, contact: **University of Windsor, School of Nursing**, 401 Sunset Avenue, Windsor, Ontario N9B 3P4. Phone: (519) 253-4232 ext.2258 Fax: (519) 973-7084

McMaster University School of Nursing

50 years of excellence

A full-time tenure track faculty position in nursing is available in the School of Nursing, Faculty of Health Sciences, McMaster University. Responsibilities will include involvement in the research activities of the School of Nursing, as well as teaching in the B.Sc.N. Program, and the Clinical Health Sciences (Nursing) Graduate Program. A doctoral degree in nursing or a relevant scientific discipline, and teaching experience in university level nursing education are required, as well as a solid clinical background in nursing. A good research track record, and eligibility for registration with the College of Nurses of Ontario are essential. Rank and salary commensurate with qualifications.

Send curriculum vitae and names of three referees to:

Dr. Andrea Baumann, R.N., Ph.D.

Associate Dean of Health Sciences (Nursing)

Room 2J16, McMaster University, School of Nursing

1200 Main Street West, Hamilton, Ontario L8N 3Z5

(905) 525-9140, ext. 22400

In accordance with Canadian immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada.

Faculty of Nursing University of Toronto FACULTY POSITIONS

The Faculty of Nursing, University of Toronto, is seeking energetic and creative faculty members for some new initiatives. An adult or pediatric nurse practitioner with expertise in an acute care specialty is sought to develop a new acute care nurse practitioner program at the master's level. Applicants should have a master's in nursing and preferably a doctorate in nursing, an NP certificate, experience in teaching and a research track record. Tenure-stream appointments will be made at the assistant or associate professor level with a cross-appointment to one of the University of Toronto teaching hospitals for practice.

As well, applicants are sought for a tenure-stream position at the assistant professor level in the area of perinatal nursing. A master's and PhD preferably in nursing are required. Clinical expertise and research should focus on the care of women and their families during pregnancy or in the post-partum period. The successful candidate will be appointed to the Perinatal Nursing Research Unit at Mount Sinai Hospital.

We are seeking individuals to join our Faculty who get excited about teaching, are strongly committed to research and have the ability to work collaboratively with practising nurses, nurse researchers and researchers from other disciplines.

The Faculty of Nursing offers a second entry/upper division BScN program, a large master's program focusing on program development and advanced practice across a wide range of clinical specialties and administration and a PhD in nursing.

Please send your curriculum vitae and a letter of application with the names of three references to:

Dean Dorothy Pringle, RN, PhD
Faculty of Nursing
University of Toronto
50 St. George Street
Toronto, Ontario
M5S 3H6
Canada

Deadline: January 31, 1997

The University of Toronto encourages applications from qualified men and women, members of visible minorities, aboriginal peoples and persons with disabilities.

Nursing Postdoctoral Fellowships in Perinatal Research

The Perinatal Research Centre (PRC) and the Faculty of Nursing, University of Alberta, Edmonton, have two postdoctoral fellowships available for highly qualified candidates to develop further the base of perinatal investigation.

Applicants should hold a Registered Nurse qualification, and be prepared at the doctoral level or near completion. A clearly demonstrated potential for independent research is expected including definition of a nursing research question. The fellowships are for two years, include a competitive salary, CDN \$5000 annual research allowance, office infrastructure and biostatistical and data management expertise.

The PRC is a state-of-the-art multidisciplinary centre comprising investigators from the faculties of Medicine, Nursing and Rehabilitation Medicine. Clinical facilities are located at the Royal Alexandra Hospital which annually has 5000 deliveries and 1500 admissions to the NICU.

UNIVERSITY OF ALBERTA

The University of Western Ontario

FACULTY OF NURSING TEACHING POSITIONS

The University of Western Ontario Faculty of Nursing invites applications for full-time (12 months) tenured or tenure track positions with teaching duties and related research in family-centred nursing, care of elderly persons, and advanced nursing practice. Teaching will include supervision of masters student research and special projects. Applicants should be eligible for registration with the College of Nurses of Ontario. An earned doctorate in nursing or a related field and demonstrated skill in teaching are required. Rank is open and dependent upon qualifications and experience. Applications will be accepted until positions are filled for July, 1997. Positions are subject to budget approval.

The University has a total enrolment of more than 22,000 full-time students in graduate, undergraduate and professional programs. It is located in London, a city equidistant from Detroit and Toronto. Excellent opportunities exist for educational, administrative, and clinical research with an extensive network of cross-appointed faculty from regional health care agencies. Send curriculum vitae and names of three referees to:

The University of Victoria

Faculty of Human and Social Development

The Schools of Child and Youth Care, Nursing, and Social Work, and the Faculty of Human and Social Development offer a graduate, multidisciplinary program in policy and practice in the human services. The program focuses on the development of leadership skills by critically examining policy and practice. It provides an opportunity for experienced professionals to reflect on and explore current issues and dilemmas in the human services in Canada.

Applications are invited for a full-time tenure-track position at the Associate Professor level, effective July 1, 1997. The minimum requirements are a doctorate in one of the above or closely related discipline, an established research program, substantial experience as a practitioner in the human services, and teaching excellence at the graduate level.

Applications must be received by January 15, 1997, accompanied by a curriculum vitae and the names of three referees. An information package describing the program and expectations of the position is available by calling Barbara Egan at (604) 721-8204.

The University of Victoria is an employment equity employer and encourages applications from women, persons with disabilities, minorities and aboriginal persons.

Applications should be addressed to:

Dr. Anita Molzahn, Dean, Faculty of Human and Social Development
University of Victoria, P.O. Box 1700 Victoria, BC V8W 2Y2

University of Windsor

SCHOOL OF NURSING

The University of Windsor School of Nursing offers both generic four-year and post-R.N. B.Sc.N. programs to approximately 450 nursing students. Planning for a collaborative B.Sc.N. program with St. Clair and Lambton Colleges is underway. A new master of science (Nursing) program commenced in 1994; 22 graduate students presently study in one of two practice areas: (1) human responses and adaptations to alterations in health; and (2) health promotion and illness prevention. The School also offers a twelve-month Nurse Practitioner, Primary Health Care, certificate (program offered through the Council of Ontario University Programs in Nursing using distance education technologies). The School of Nursing is engaged in several active programs of research, including multidisciplinary research, and is committed to the development of undergraduate and graduate nursing education in Jordan (funded through CIDA).

Applications are invited for:

- (1) one regular tenure-track position at the rank of assistant professor
 - (2) one nine-month limited-term position at the rank of assistant professor
- Both positions are available July 1, 1997.

Qualifications:

Minimum academic preparation and qualifications include a master of science in nursing and an earned doctorate in nursing or a related discipline. Candidates must be eligible for registration with the College of Nurses of Ontario. In addition to being active in research, teaching experience is desirable. Preference will be given to applicants who can contribute to the graduate program and to one of the following clinical specializations: adult health and/or health promotion.

Candidates should send a letter of application and a recent curriculum vitae and should arrange for three letters of reference to be forwarded directly to: Dr. M.E. Horsburgh, Director, School of Nursing, University of Windsor, Windsor, Ontario N9B 3P4. Complete applications including letters of reference should be received by January 31, 1997.

The University of Windsor is committed to equity and diversity in the workplace and welcomes applications from Aboriginal peoples, persons with disabilities and members of visible minorities. Applications from women are particularly encouraged. In accordance with Canadian immigration standards, this advertisement is directed to Canadian citizens and permanent residents of Canada.

Information for Authors

The *Canadian Journal of Nursing Research* is a quarterly journal. Its primary mandate is to publish nursing research that develops basic knowledge for the discipline and examines the application of the knowledge in practice. It also accepts research related to education and history and welcomes methodological, theory, and review papers that advance nursing science. Letters or commentaries about published articles are encouraged.

Procedure: Three double-spaced typewritten copies of the manuscript on 8 1/2" x 11" paper are required. Articles may be written in French or English. Authors are requested not to put their name in the body of the text, which will be submitted for blind review. Only unpublished manuscripts are accepted. A written statement assigning copyright of the manuscript to the *Canadian Journal of Nursing Research* must accompany all submissions to the journal. Manuscripts are sent to: The Editor, The *Canadian Journal of Nursing Research*, School of Nursing, McGill University, 3506 University Street, Montreal, QC H3A 2A7.

Manuscripts

All manuscripts must follow the fourth edition of the *Publication Manual of the American Psychological Association*. Research articles must follow the APA format for presentation of the literature review, research questions and hypotheses, method, and discussion. All articles must adhere to APA guidelines for references, tables, and figures. Do not use footnotes.

Title page: This should include author name(s), degrees, position, information on financial assistance, acknowledgements, requests for reprints, address, and present affiliation.

Abstract: Research articles must include a summary of 100-150 words containing information on the purpose, design, sample, findings, and implications. Theory and review papers must include a statement of the principal issue(s), the framework for analysis, and a summary of the argument.

Text: The text should not exceed 15 double-spaced typed pages. References, tables, and figures should follow the text.

References: The references are listed in alphabetical order, double-spaced, and placed immediately following the text. Author names and journal citations must be spelled out in full.

Tables and figures: Tables and figures should appear only when absolutely necessary. They must be self-explanatory and summarize relevant information without duplicating the content of the text. Each table must include a short title, omit abbreviations, and be typed on a separate page. Figures must be in camera-ready form.

Review process and publication information: The *Canadian Journal of Nursing Research* is a peer-reviewed journal. Manuscripts are submitted to two reviewers for blind review. The first author will be notified following the review process, which takes approximately 12 weeks to complete.

Electronic copy: Authors must provide satisfactory electronic files of the accepted final version of the manuscript.

Renseignements à l'intention des auteurs

La *Revue canadienne de recherche en sciences infirmières* paraît quatre fois par année. Son mandat est de publier la recherche en sciences infirmières qui a trait au développement des connaissances dans la discipline et l'analyse de la mise en pratique de ces connaissances. La revue accepte également des articles de recherche reliés à l'éducation, à l'histoire de même que des articles reliés à la méthodologie, la théorie et l'analyse critique qui permettent le développement des sciences infirmières. Des lettres et commentaires sur des articles publiés son également encouragés.

Modalités : Les textes doivent être soumis en trois exemplaires, être dactylographiés à double interligne sur des feuilles 216mm x 279 mm et être adressés à la rédactrice en chef, à la *Revue canadienne de recherche en sciences infirmières*, Université McGill, École des sciences infirmières, 3506 rue Université, Montréal, QC, H3A 2A7. Il est entendu que les articles soumis n'ont pas été simultanément présentés à d'autres revues. Veuillez également inclure lors de la soumission, une déclaration de propriété et de cession de droits d'auteurs. Finalement, afin de garder l'anonymat lors du processus de révision, veuillez ne pas inclure les noms des auteurs dans le texte.

Manuscripts

La présentations du manuscrit doit respecter les normes du *Publication Manual of the American Psychological Association*, 4^{ème} édition, 1994. Particulièrement, les figures, tableaux, illustrations et références doivent suivre ces normes de présentation. Il est suggéré de ne pas utiliser de notes au bas de la page.

Page titre : Pour assurer la lecture anonyme des textes soumis, seule la page titre du manuscrit comprendra le nom, l'adresse et l'affiliation de(s) auteur(s), les diplômes obtenus ainsi que l'aide financière reçue, les remerciements et une demande de copies.

Résumé : Un résumé en anglais et en français d'environ 100 à 150 mots chacun doit précéder le texte. Ce résumé devrait comprendre l'objectif, la méthode, les résultats et les retombées de la recherche. Les manuscrits qui concernent la théorie et les analyses critiques doivent inclure une identification des objectifs principaux, le cadre conceptuel utilisé pour l'analyse des données et un résumé de la discussion. La qualité du français est primordiale; le style doit être clair concis et doit éviter un langage sexiste ou discriminatoire.

Texte : La longueur totale d'un manuscrit incluant les tableaux, les figures et les références, ne doit pas dépasser 15 pages, dactylographiées à double interligne. Les articles peuvent être rédigées soit en anglais ou en français.

Références : Les références doivent paraître en ordre alphabétique, à double interligne et être suite au texte. Les noms des auteurs de même que les citations de revues doivent être écrites au long.

Tableaux et schémas : Les tableaux et schémas doivent paraître seulement si nécessaire. Ils doivent résumer des informations pertinentes sans redire le contenu du texte. Chaque tableau doit comprendre un titre, ne pas comprendre d'abréviations et être dactylographié sur une page à part. Vous devez remettre les originaux des schémas dessinés à l'encre de Chine et prêts à être photographiés.

Examen des manuscrits et renseignements reliés à la publication : Lorsqu'un manuscrit est soumis pour publication à la *Revue canadienne de recherche en sciences infirmières*, le comité de rédaction débute le processus de lecture : il envoie à un minimum de deux réviseurs, spécialistes du sujet dont traite le texte, une copie anonyme du manuscrit ainsi que la grille d'évaluation des manuscrits. Sur réception des évaluations des réviseurs, le comité de rédaction prend la décision de publier ou non le texte et en informe l'auteur(e) responsable en lui faisant part des évaluations des réviseurs. Ce processus prend habituellement douze semaines. Si la décision est favorable, le comité peut proposer des corrections que l(les) auteur(s) devra (ont) effectuer avant que le texte ne soit publié.

Copie électronique : Les auteurs doivent remettre une copie de leur article sur disquette suite à l'acceptation finale de l'article.

Canadian Journal of Nursing Research
Revue canadienne de recherche en sciences infirmières

The *Canadian Journal of Nursing Research* provides a forum in Canada for the publication of research and scholarly articles relevant to nursing and health. You and your agency are invited to subscribe to this journal.

You also are invited to submit articles to the *Canadian Journal of Nursing Research*. *CJNR* publishes articles on clinical research, methodological issues, education research, and historical research, as well as theory and position papers that advance nursing knowledge. Information for authors and the criteria for evaluating articles can be obtained from the Circulation Manager.
