## ***Alternative Treatment & Symptom Management***

**March 2000 (vol. 31, no. 4)**

The implementation of alternative treatment and symptom management is rapidly increasing and is of interest to nurses across the full spectrum of patient populations and conditions. This issue will focus on novel or non-traditional treatments and management of symptoms within the realm of nursing practice. Of particular interest are studies from a nursing-science perspective that address but are not limited to the symptoms of pain, fatigue, stress, anxiety, fear, and depression. We hope to publish the latest research as well as papers that describe the development or validation of theoretical or conceptual perspectives. Priority will be given to papers that deal with the evaluation and implementation of alternative treatments and management of symptoms in vulnerable populations, such as infants and children, the elderly, and individuals with cognitive, developmental, or communication disabilities, and the effect of this management on the individual, the family, and society.

**Guest Editor: Dr. Bonnie Stevens**  
**Submission Deadline: July 15, 1999**

## ***Primary Health Care***

**June 2000 (vol. 32, no. 1)**

Primary Health Care is considered to be essential health care that is based on practical, scientifically sound, and socially acceptable methods and technologies which are universally accessible to people in their local communities. This issue of the CJNR will focus on the spectrum of papers related to primary health care, including theoretical development, empirical studies of primary health care interventions and outcomes, and policy directives supporting primary health care. The foci of empirical work may include specific populations (e.g., vulnerable groups), health systems, or the community level. A range of methods and research approaches are welcome including evaluation studies, instrument development, validation studies, surveys, and qualitative studies. Priority will be given to papers which advance our knowledge of nursing's role in primary health care.

**Guest Editor: Dr. Karen Chalmers**  
**Submission Deadline: October 15, 1999**

Please send manuscripts to: The Editor, *Canadian Journal of Nursing Research*  
McGill University School of Nursing, 3506 University Street  
Montreal, QC H3A 2A7 Canada

## *Bulletin Board*

### **October 1-3, 1999 – Boston, MA**

16th Annual Conference of the American Association for the History of Nursing with optional pre-conference Sept. 30th on Teaching the History of Nursing. Sponsors: American Association for the History of Nursing and Boston College. Contact: Continuing Education Department, Boston College, (617) 552-4252, or [www.aahn.org/](http://www.aahn.org/)

### **New ICCHNR Website**

The UK-based organization International Conferences on Community Health Nursing Research, chaired by Dr. Lisbeth Hockey, has established a website aimed at promoting international exchange about CHN research and promoting international CHN research conferences. Open to all who are interested: [www.hull.ac.uk/Hull/health\\_ps/ICCHNR/index.html](http://www.hull.ac.uk/Hull/health_ps/ICCHNR/index.html)

All information appearing under the Bulletin Board is accepted by written request only.

## The University of Western Ontario Faculty of Health Sciences

The Faculty of Health Sciences at The University of Western Ontario invites applications for a faculty position in the **School of Nursing**, beginning January 1 or July 1, 2000. This is a tenure-track appointment at the rank of assistant or associate professor. Responsibilities include undergraduate and graduate teaching, conduct of research, publication, and service to the community.

The School of Nursing has 350 students enrolled in the BScN program and 45 students in the MScN program. Under the unifying concept of empowerment, faculty research addresses nursing administration, nursing education, and clinical practice. Educational and research programs are supported by excellent relationships with clinical agencies.

Candidates must have a PhD (or be near completion), a master's degree in nursing, evidence of a developing research and publication program, and a certificate of registration with the College of Nurses of Ontario (or eligibility for a certificate). The substantive areas of particular interest to the School of Nursing are pediatric nursing, nursing administration, and acute care nursing.

Interested candidates should forward a curriculum vitae, documents supporting their qualifications, and the names, addresses, and contact numbers of three referees to:

Dr. Angelo N. Belcastro, Dean  
Faculty of Health Sciences  
Room H125, Health Sciences Addition  
The University of Western Ontario  
London, Ontario N6A 5C1 Canada

**The deadline for receipt of applications is September 30, 1999.**

*Positions are subject to budget approval. In accordance with Canadian immigration requirements, this advertisement is directed to Canadian citizens and Permanent Residents of Canada. The University of Western Ontario is committed to employment equity, welcomes diversity in the workplace, and encourages applications from all qualified individuals including women, members of visible minorities, aboriginal persons, and persons with disabilities.*

The *Canadian Journal of Nursing Research* gratefully acknowledges the generous support of **St. Francis Xavier University Department of Nursing** on the occasion of our 30th Anniversary.

## St. Francis Xavier University Department of Nursing

The 4-year nursing program at St. Francis Xavier University leads to a Bachelor of Science in Nursing degree. A Distance Post-RN, BScN degree is also offered.

*Contact:*

Professor S.D. Sony, Chair, 902-867-3988  
P.O.Box 5000, Antigonish, Nova Scotia B2G 2W5 Canada

## Call for Abstracts

The University of Colorado Health Sciences Center School of Nursing is sponsoring an International track as part of the 25th National Primary Care Nurse Practitioner Symposium to be held July 13-16, 2000, in Keystone Resort, Colorado. The purpose of the track is to support the development of nurse practitioners internationally, through sharing of ideas and networking. Papers can include but are not to be limited to areas of practice, professional development, education, and research. Abstracts are being accepted for oral or poster sessions.

### **Guidelines for Submission**

Abstract must be typed, limited to one page, single spaced, with 1½" left and 1" right margins. Only abstracts in English will be accepted.

Include author curriculum vitae with author's postal, telephone, e-mail, and fax contact information.

*Deadline is September 15, 1999.*

If initial abstract is sent via fax or electronic e-mail, an original copy of the abstract must be followed up by mail.

*Contact:* UCHSC at Fitzsimons, NPS Office, P.O. Box 6508  
Mail Stop: F541, Aurora CO USA 80045-0957  
e-mail: [nps@uchsc.edu](mailto:nps@uchsc.edu) Phone: 303-724-0600, Fax: 303-724-0927

# McGill University

## School of Nursing

*Leading the way...*

### *A Unique Philosophy*

- Internationally recognized for its unique approach to nursing and health promotion

### *A Unique University*

- World-renowned McGill is one of Canada's oldest universities, located in downtown Montreal

### *A Unique City*

- Montreal is a diverse multicultural metropolis with European flair

---

### **Ph.D.** (offered jointly with the Université de Montréal)

- Designed to train researchers and prepare leaders in the profession and in the health-care system

### **Master of Science**

- Open to nurses holding a baccalaureate degree and to baccalaureate graduates with no previous preparation in nursing (generic master's)
- Prepares clinicians and researchers to play a crucial role in shaping health care

### **Bachelor of Science in Nursing**

- Prepares nurses to deal effectively with complex health issues relating to the individual, the family, and the community

### **Bachelor of Nursing**

- Open to registered nurses from a college or other diploma nursing program
- Offered on a full-time or part-time basis, this program prepares nurses for practice in an increasingly complex health care system

## Information for Authors

The *Canadian Journal of Nursing Research* is a quarterly journal. Its primary mandate is to publish nursing research that develops basic knowledge for the discipline and examines the application of the knowledge in practice. It also accepts research related to education and history and welcomes methodological, theory, and review papers that advance nursing science. Letters or commentaries about published articles are encouraged.

**Procedure:** Three double-spaced typewritten copies of the manuscript on 8 ½" x 11" paper are required. Articles may be written in French or English. Authors are requested not to put their name in the body of the text, which will be submitted for blind review. Only unpublished manuscripts are accepted. A written statement assigning copyright of the manuscript to the *Canadian Journal of Nursing Research* must accompany all submissions to the Journal. Manuscripts are sent to: The Editor, *Canadian Journal of Nursing Research*, School of Nursing, McGill University, 3506 University Street, Montreal, QC H3A 2A7.

### **Manuscripts**

All manuscripts must follow the fourth edition of the *Publication Manual of the American Psychological Association*. Research articles must follow the APA format for presentation of the literature review, research questions and hypotheses, method, and discussion. All articles must adhere to APA guidelines for references, tables, and figures. Do not use footnotes.

**Title page:** This should include author name(s), degrees, position, information on financial assistance, acknowledgements, requests for reprints, address, and present affiliation.

**Abstract:** Research articles must include a summary of 100–150 words containing information on the purpose, design, sample, findings, and implications. Theory and review papers must include a statement of the principal issue(s), the framework for analysis, and a summary of the argument.

**Text:** The text should not exceed 15 double-spaced typed pages. References, tables, and figures should follow the text.

**References:** The references are listed in alphabetical order, double-spaced, and placed immediately following the text. Author names and journal citations must be spelled out in full.

**Tables and figures:** Tables and figures should appear only when absolutely necessary. They must be self-explanatory and summarize relevant information without duplicating the content of the text. Each table must include a short title, omit abbreviations, and be typed on a separate page. Figures must be in camera-ready form.

**Review process and publication information:** The *Canadian Journal of Nursing Research* is a peer-reviewed journal. Manuscripts are submitted to two reviewers for blind review. The first author will be notified following the review process, which takes approximately 12 weeks to complete.

**Electronic copy:** Authors must provide satisfactory electronic files of the accepted final version of the manuscript.

## **Renseignements à l'intention des auteurs**

La *Revue canadienne de recherche en sciences infirmières* est publiée quatre fois par année. Son mandat est de diffuser la recherche en sciences infirmières qui a trait au développement des connaissances dans la discipline et l'analyse de la mise en pratique de ces connaissances. La revue accepte également des articles de recherche liés à l'éducation, à l'histoire de même que des articles liés à la méthodologie, la théorie et l'analyse critique qui favorisent le développement des sciences infirmières. Nous vous invitons à nous faire parvenir également vos commentaires sur les articles publiés.

**Modalités :** Les textes doivent être soumis en trois exemplaires, être dactylographiés à double interligne sur des feuilles 216 mm x 279 mm et être adressés à la rédactrice en chef, à la *Revue canadienne de recherche en sciences infirmières*, Université McGill, École des sciences infirmières, 3506, rue University, Montréal, QC H3A 2A7. Il est entendu que les articles soumis n'ont pas été simultanément présentés à d'autres revues. Veuillez également inclure, avec la soumission, une déclaration de propriété et de cession de droits d'auteurs. Finalement, afin de garder l'anonymat lors du processus de révision, veuillez ne pas inclure les noms des auteurs dans le texte.

### **Manuscrits**

La présentation du manuscrit doit respecter les normes du *Publication Manual of the American Psychological Association*, 4<sup>e</sup> édition, 1994. Notamment, les figures, tableaux, illustrations et références doivent être présentés selon les normes prescrites. Il est suggéré de ne pas avoir recours aux notes de bas de page.

**Page titre :** Pour assurer la lecture anonyme des textes soumis, seule la page titre du manuscrit comprendra le nom, l'adresse et l'affiliation de(s) auteur(s), les diplômes obtenus ainsi que l'aide financière reçue, les remerciements et une demande d'exemplaires.

**Résumé :** Un résumé en anglais et en français d'environ 100 à 150 mots chacun doit précéder le texte. Ce résumé devrait comprendre l'objectif, la méthode, les résultats et les retombées de la recherche. Les manuscrits qui concernent la théorie et les analyses critiques doivent inclure une identification des objectifs principaux, le cadre conceptuel utilisé pour l'analyse des données et un résumé de la discussion. La qualité du français est primordiale; le style doit être clair, concis et doit être exempt d'un langage sexiste ou discriminatoire.

**Texte :** La longueur totale d'un manuscrit, incluant les tableaux, les figures et les références, ne doit pas dépasser 15 pages, dactylographiées à double interligne. Les articles peuvent être rédigés soit en anglais ou en français.

**Références :** Les références doivent paraître en ordre alphabétique, à double interligne et faire suite au texte. Les noms des auteurs de même que les citations de revues doivent être écrits au long.

**Tableaux et schémas :** Les tableaux et schémas doivent paraître seulement si nécessaire. Ils doivent résumer des données pertinentes sans redire le contenu du texte. Chaque tableau doit comprendre un titre, ne pas comprendre d'abréviations et être dactylographié sur une page à part. Vous devez remettre les originaux des schémas dessinés à l'encre de Chine et prêts à être photographiés.

**Examen des manuscrits et renseignements relatifs à la publication :** Lorsqu'un manuscrit est soumis pour des fins de publication à la *Revue canadienne de recherche en sciences infirmières*, le comité de rédaction entame le processus de lecture : il envoie à un minimum de deux réviseurs, spécialistes du sujet dont traite le texte, un exemplaire anonyme du manuscrit ainsi que la grille d'évaluation des manuscrits. Sur réception des évaluations des réviseurs, le comité de rédaction décide si le texte peut être publié et en informe l'auteur responsable en lui faisant part des évaluations des réviseurs. Ce processus nécessite habituellement douze semaines. Si la décision est favorable, le comité peut proposer des corrections que le(s) auteur(s) devra(ont) effectuer avant que le texte ne soit publié.

**Copie électronique :** Les auteurs doivent remettre un exemplaire de leur article sur disquette, suite à l'acceptation finale de l'article.
