

### ***Primary Health Care***

**June 2000 (vol. 32, no. 1)**

Primary health care is considered to be essential health care that is based on practical, scientifically sound, and socially acceptable methods and technologies that are universally accessible to people in their local communities. This issue of the *CJNR* will focus on the spectrum of papers related to primary health care, including theoretical development, empirical studies of primary health-care interventions and outcomes, and policy directives supporting primary health care. The foci of empirical work may include specific populations (e.g., vulnerable groups), health systems, or a level of community. A range of methods and research approaches are sought, including evaluation studies, instrument development, validation studies, surveys, and qualitative studies. Priority will be given to papers that advance our knowledge of nursing's role in primary health care.

**Guest Editor: Dr. Karen Chalmers**

**Submission Deadline: October 15, 1999**

### ***Philosophy/Theory***

**September 2000 (vol. 32, no. 2)**

The rapid changes in the health-care system, the development of new technologies, and, consequently, the changes in nursing roles and responsibilities are all challenging nurses to critically examine and defend what constitutes nursing practice. This examination prompts us to consider the nature, scope, and goal of nursing practice. In addition to these issues, nursing scholars are grappling with questions related to what it means to know, the nature of truth, and the basis on which we claim that our research methods lead to knowledge. To address these concerns, philosophic and theoretical papers are invited on topics that speak to the nature of nursing and the nature of nursing knowledge. Priority will be given to manuscripts that have the potential to stimulate discussion of critical issues facing the discipline of nursing.

**Guest Editor: Dr. Joy Johnson**

**Submission Deadline: January 15, 2000**

Please send manuscripts to:

The Editor, *Canadian Journal of Nursing Research*,  
McGill University School of Nursing, 3506 University Street,  
Montreal, QC H3A 2A7 Canada

## *Bulletin Board*

### **Conference**

Joan Gilchrist Nursing Exploration Series: Private or Public Health Care? Nurses Confront the Dilemma, September 24, 1999, Montreal, Quebec. A day to debate choices for nurses. Speakers: Pat Armstrong, co-author of *Universal Health Care: What the United States Can Learn from Canada and Wasting Away: The Undermining of Canadian Health Care*; and Betty Gourlay, President of the Canadian Association of Nurses in Independent Practice. *Information:* mgabriel@wilson.lan.mcgill.ca or 514-398-4144

### **Call for Abstracts**

Paper/Poster: 7th Annual Conference of the American Association for the History of Nursing, September 22-24, 2000, Villanova, Pennsylvania. Sponsors: Villanova University College of Nursing and AAHN. *Deadline:* January 15, 2000. *Information:* [www.aahn.org](http://www.aahn.org) or 609-693-7250

### **New Website**

The Canadian-International Nurse Researcher Database (CNRD) is a nursing research infrastructure project developed by Drs. Howard Burnt and Colleen Varcoe of the University of Victoria, British Columbia, in consultation with nurses around the world. CNRD is an invaluable, free internet resource for nurse researchers, administrators, policy-makers, and clinicians: [www.nurseresearcher.com](http://www.nurseresearcher.com)

Information for the Bulletin Board must be submitted in writing.

## McGill University Health Centre Associate Director for Nursing Research

The McGill University Health Centre is a recently merged quaternary care, academic health-science centre in the heart of the cosmopolitan city of Montreal. It has 1,300 beds, approximately 700,000 ambulatory care visits per year, and a staff of 10,000, of which 4,000 are nurses.

The Department of Nursing is seeking an **Associate Director for Nursing Research**, who will provide leadership to promote excellence in nursing research, building on the McGill University Health Centre's existing nursing research program (approximately \$4.5 million in peer-reviewed funding over the last three years). The Associate Director for Nursing Research is responsible for the overall McGill University Health Centre Nursing Research program, including staff, activities, and resources, and for recruiting additional nurse researchers, obtaining new resources, and effectively using existing resources to strengthen nursing research and its ties to practice and education. This nursing leader will actively contribute to the development of the discipline and the preparation of new nurse researchers and will participate with other senior leaders in strategic planning for nursing. The Associate Director for Nursing Research will have a leadership role in the McGill University Health Centre Research Institute and will hold a faculty appointment in the McGill University School of Nursing. The successful candidate will work in collaboration with colleagues in nursing and other disciplines. The Associate Director for Nursing Research will enhance the McGill University Health Centre's profile by developing effective relationships with funding agencies, professional organizations, other health-care and academic institutions, and community groups.

### Requirements:

- OIIQ Registration
- Ph.D. in nursing or related discipline
- More than 5 years' experience as an investigator (administrative experience is an asset)
- Demonstrated record of research productivity
- Excellent leadership and communication skills
- Demonstrated ability to work in a decentralized management setting
- Fluency in both English and French

Interested candidates should send their curriculum vitae to  
Valerie Shannon, Director of Nursing, McGill University Health Centre,  
1650 Cedar Avenue, Montreal, Quebec H3G 1A4,  
no later than November 30, 1999.

**Dalhousie University**  
School of Nursing  
Nurse Practitioner Program  
for Remote and Under-serviced Communities

*Working in Partnership with Communities for Health*

***Registered Nurses are invited to apply to our Nurse Practitioner Program***

**Program Focus**

Primary health care, community development  
and health education

Advanced clinical skills for generalist nurse  
practitioners working with people of all ages

**Program Streams**

1-year diploma for BScN-prepared nurses

2-year diploma/BScN program for diploma-prepared  
nurses (plus first-year university prerequisite courses)

Classes commence in January and September.

To request application information, please contact  
Stacy Davies at 902-494-2603 or 1-800-500-0912  
or e-mail [stacey.davies@dal.ca](mailto:stacey.davies@dal.ca).

Program information is also available on our web site:

# McGill University

## School of Nursing

*Leading the way...*

### *A Unique Philosophy*

- Internationally recognized for its unique approach to nursing and health promotion

### *A Unique University*

- World-renowned McGill is one of Canada's oldest universities, located in downtown Montreal

### *A Unique City*

- Montreal is a diverse multicultural metropolis with European flair

---

### **Ph.D.** (offered jointly with the Université de Montréal)

- Designed to train researchers and prepare leaders in the profession and in the health-care system

### **Master of Science**

- Open to nurses holding a baccalaureate degree and to baccalaureate graduates with no previous preparation in nursing (generic master's)
- Prepares clinicians and researchers to play a crucial role in shaping health care

### **Bachelor of Science in Nursing**

- Prepares nurses to deal effectively with complex health issues relating to the individual, the family, and the community

### **Bachelor of Nursing**

- Open to registered nurses from a college or other diploma nursing program
- Offered on a full-time or part-time basis; prepares nurses for practice in an increasingly complex health-care system

## Information for Authors

The *Canadian Journal of Nursing Research* is a quarterly journal. Its primary mandate is to publish nursing research that develops basic knowledge for the discipline and examines the application of the knowledge in practice. It also accepts research related to education and history and welcomes methodological, theory, and review papers that advance nursing science. Letters or commentaries about published articles are encouraged.

**Procedure:** Three double-spaced typewritten copies of the manuscript on 8 1/2" x 11" paper are required. Articles may be written in French or English. Authors are requested not to put their name in the body of the text, which will be submitted for blind review. Only unpublished manuscripts are accepted. A written statement assigning copyright of the manuscript to the *Canadian Journal of Nursing Research* must accompany all submissions to the Journal. Manuscripts are sent to: The Editor, *Canadian Journal of Nursing Research*, School of Nursing, McGill University, 3506 University Street, Montreal, QC H3A 2A7.

### **Manuscripts**

All manuscripts must follow the fourth edition of the *Publication Manual of the American Psychological Association*. Research articles must follow the APA format for presentation of the literature review, research questions and hypotheses, method, and discussion. All articles must adhere to APA guidelines for references, tables, and figures. Do not use footnotes.

**Title page:** This should include author name(s), degrees, positions and affiliations, information on financial assistance, acknowledgements, and address for reprint requests.

**Abstract:** Research articles must include a summary of 100–150 words on the purpose, design, sample, findings, and implications of the research. Theory and review papers must include a statement of the principal issue(s), the framework for analysis, and a summary of the argument.

**Text:** The text should not exceed 15 double-spaced typed pages including references, tables, and figures (which are placed at the end of the text).

**References:** The references are listed in alphabetical order, double-spaced, and placed immediately following the text. Author names and journal citations must be spelled out in full.

**Tables and figures:** Tables and figures should appear only when absolutely necessary. They must be self-explanatory and summarize relevant information without duplicating the content of the text. Each table must include a short title, omit abbreviations, and be typed on a separate page. Figures must be in camera-ready form.

**Review process and publication information:** The *Canadian Journal of Nursing Research* is a peer-reviewed journal. Manuscripts are submitted to two reviewers for blind review. The first author will be notified following the review process, which takes approximately 12 weeks to complete.

**Electronic copy:** Authors must provide satisfactory electronic files of the accepted final version of the manuscript.

## **Renseignements à l'intention des auteurs**

*La Revue canadienne de recherche en sciences infirmières* est publiée quatre fois par année. Son mandat est de diffuser la recherche en sciences infirmières qui a trait au développement des connaissances dans la discipline et l'analyse de la mise en pratique de ces connaissances. La revue accepte également des articles de recherche liés à l'éducation, à l'histoire de même que des articles liés à la méthodologie, la théorie et l'analyse critique qui favorisent le développement des sciences infirmières. Nous vous invitons à nous faire parvenir également vos commentaires sur les articles publiés.

**Modalités :** Les textes doivent être soumis en trois exemplaires, être dactylographiés à double interligne sur des feuilles 216 mm x 279 mm et être adressés à la rédactrice en chef, à la *Revue canadienne de recherche en sciences infirmières*, Université McGill, École des sciences infirmières, 3506, rue University, Montréal, QC H3A 2A7. Il est entendu que les articles soumis n'ont pas été simultanément présentés à d'autres revues. Veuillez également inclure, avec la soumission, une déclaration de propriété et de cession de droits d'auteurs. Finalement, afin de garder l'anonymat lors du processus de révision, veuillez ne pas inclure les noms des auteurs dans le texte.

### **Manuscrits**

La présentation du manuscrit doit respecter les normes du *Publication Manual of the American Psychological Association*, 4<sup>e</sup> édition, 1994. Notamment, les figures, tableaux, illustrations et références doivent être présentés selon les normes prescrites. Il est suggéré de ne pas avoir recours aux notes de bas de page.

**Page titre :** Pour assurer la lecture anonyme des textes soumis, seule la page titre du manuscrit comprendra le nom, l'adresse et l'affiliation de(s) auteur(s), les diplômes obtenus ainsi que l'aide financière reçue, les remerciements et une demande d'exemplaires.

**Résumé :** Un résumé d'environ 100 à 150 mots chacun doit précéder le texte. Ce résumé devrait comprendre l'objectif, la méthode, les résultats et les retombées de la recherche. Les manuscrits qui concernent la théorie et les analyses critiques doivent inclure une identification des objectifs principaux, le cadre conceptuel utilisé pour l'analyse des données et un résumé de la discussion.

**Texte :** La longueur totale d'un manuscrit, incluant les tableaux, les figures et les références, ne doit pas dépasser 15 pages, dactylographiées à double interligne. Les articles doivent être rédigés en anglais.

**Références :** Les références doivent paraître en ordre alphabétique, à double interligne et faire suite au texte. Les noms des auteurs de même que les citations de revues doivent être écrits au long.

**Tableaux et schémas :** Les tableaux et schémas doivent paraître seulement si nécessaire. Ils doivent résumer des données pertinentes sans redire le contenu du texte. Chaque tableau doit comprendre un titre, ne pas comprendre d'abréviations et être dactylographié sur une page à part. Vous devez remettre les originaux des schémas dessinés à l'encre de Chine et prêts à être photographiés.

**Examen des manuscrits et renseignements relatifs à la publication :** Lorsqu'un manuscrit est soumis pour des fins de publication à la *Revue canadienne de recherche en sciences infirmières*, le comité de rédaction entame le processus de lecture : il envoie à un minimum de deux réviseurs, spécialistes du sujet dont traite le texte, un exemplaire anonyme du manuscrit ainsi que la grille d'évaluation des manuscrits. Sur réception des évaluations des réviseurs, le comité de rédaction décide si le texte peut être publié et en informe l'auteur responsable en lui faisant part des évaluations des réviseurs. Ce processus nécessite habituellement douze semaines. Si la décision est favorable, le comité peut proposer des corrections que l'(les) auteur(s) devra(ont) effectuer avant que le texte ne soit publié.

**Copie électronique :** Les auteurs doivent remettre un exemplaire de leur article sur disquette, suite à l'acceptation finale de l'article.

*Canadian Journal of Nursing Research*  
*Revue canadienne de recherche en sciences infirmières*

The *Canadian Journal of Nursing Research* provides a forum in Canada for the publication of research and scholarly articles relevant to nursing and health. You and your agency are invited to subscribe to this journal.

You also are invited to submit articles to the *Canadian Journal of Nursing Research*. CJNR publishes articles on clinical research, methodological issues, education research, and historical research, as well as theory and position papers that advance nursing knowledge. Information for authors and the criteria for evaluating articles can be obtained from the Managing Editor.
