

Ethics, Values, & Decision-Making

September 2002 (vol. 34, no. 2)

This issue of *CJNR* will focus on ethics, values, and decision-making in health and health care. Despite the rise in concern about the ethical and value dimensions of health and health care, these dimensions have received only moderate attention in the nursing literature. In particular, the significance of ethics and values in health-care decision-making has been scarcely examined. We are calling for philosophical, theoretical, and empirical research papers in these areas. *CJNR* seeks manuscripts that examine current philosophical or theoretical problems, or report empirical research, in ethics, values, and/or decision-making in health and health care. Manuscripts that effectively assert innovative implications for research, education, or clinical care are particularly requested.

Guest Editor: Dr. Frank Carnevale

Submission Deadline: January 15, 2002

Addiction & Dependence

December 2002 (vol. 34, no. 3)

In nursing and in other disciplines, addiction, dependence, and addictive behaviours and their health consequences are of growing social concern. This issue will focus on all aspects of these phenomena as they intersect with nursing practice in all health-care settings. We are interested in addiction in all its forms (e.g., tobacco, drugs, alcohol), any behaviour that results in a physiological dependency (e.g., eating disorders), the effects on individual and family well-being across the lifespan, physical and mental health outcomes, and prevention and intervention. We are also interested in individual, parental/family, and social/environmental factors that place individuals at risk or that lessen the risk of these phenomena. We are particularly interested in the testing of interventions and the factors that contribute to an intervention's success. We plan to mainly publish research reports but will consider papers on theory development and testing. We welcome investigations that use either qualitative or quantitative data or a combination of the two.

Guest Editor: Dr. Pamela Ratner

Submission Deadline: April 15, 2002

St. Francis Xavier University Nursing Faculty Positions

The Department of Nursing at St. Francis Xavier University offers a four-year, integrated BScN program at two sites: Antigonish, N.S., and Sydney, N.S. (the latter jointly with the University College of Cape Breton). It also offers an innovative post-diploma baccalaureate program by distance education.

Applications are invited for three tenured-track positions at the rank of assistant or associate professor, and two limited-term positions. A fourth tenure-track position may be available pending budgetary approval. Appointments are available at each site beginning August 1, 2002. Opportunity is provided to teach in the on-campus program and in the distance education program. Salary and rank will be commensurate with qualifications and experience.

Applications should have a Master's degree in Nursing, a PhD (or be near completion), teaching experience, a strong nursing practice background, and evidence of a developing research and publication record, and be eligible for registration with the RNANS. The substantive areas of interest to the Department include: child health, adult health, acute care, research, and management.

Research and educational programs in the Department are supported by strong relationships with a broad range of clinical and community agencies in both rural and urban settings. Faculty research is guided by the concepts of health promotion, self-care, and caring.

Interested candidates, please submit a curriculum vitae, a copy of current registration, and the names and contact information (including telephone and fax numbers) of three referees, including most recent employer, to: **Dr. Angela Gillis, Chair, Department of Nursing, St. Francis Xavier University, P.O. Box 5000, Antigonish, N.S. B2G 2W5; Fax: 902 867-2322.**

The deadline for receipt of applications is February 1, 2002, but further applications will be received until the positions are filled.

In accordance with Canadian immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada. St. Francis Xavier University is committed to employment equity.

La bourse EURÉKA! de recherche
en Sciences infirmières

The EUREKA! Fellowship
in Nursing Research

The EUREKA! Fellowship in Nursing Research at the McGill University Health Centre presents a unique opportunity for nurses in clinical practice who are passionate about finding answers to clinical questions. The Award enables a nurse to function for one year as a Nursing Research Fellow at the MUHC.

The EUREKA! Fellowship is a gift of time. The Fellow has time and support to pursue a research project. The project can be in any clinical area of nursing.

During the one-year Award, the Fellow will work in the MUHC Nursing Research Department with the support of an experienced nurse researcher and/or researchers from another discipline.

APPLICATION FORMS available from:

Department of Nursing Research
McGill University Health Centre
Montreal General Hospital Site
1650 Cedar Avenue, Room D6-156
Montreal, QC H3G 1A4
(514) 934-1934, local 4188.

APPLICATION DEADLINE: May 15, 2002

The EUREKA! Fellowship in Nursing Research at the MUHC was created with the generous support of Richard and Satoko Ingram and the Newton Foundation.

**The 9th International
Pediatric Nursing Research Symposium
"Clinical Care of the Child and Family"**

April 11th and 12th, 2002
Montreal, Quebec, Canada

Keynote speakers:

Dorothy Brooton, RN, PhD, FAAN
Bonnie Stevens, RN, PhD

For further information contact:

Dr. Janet Rennick: janet.rennick@muhc.mcgill.ca
514-412-4400 ext. 22556 514-412-4355

The Symposium is sponsored by The Montreal Children's Hospital of the McGill University Health Centre, the Department of Nursing Research of the McGill University Health Centre, and the School of Nursing, McGill University.

McGill University

School of Nursing

Leading the way...

A Unique Philosophy

- Internationally recognized for its unique approach to nursing and health promotion

A Unique University

- World-renowned McGill is one of Canada's oldest universities, located in downtown Montreal

A Unique City

- Montreal is a diverse multicultural metropolis with European flair
-

PhD (offered jointly with the Université de Montréal)

- Designed to train researchers and prepare leaders in the profession and in the health-care system

Master of Science

- Open to nurses holding a baccalaureate degree and to baccalaureate graduates with no previous preparation in nursing (generic master's)
- Prepares clinicians and researchers to play a crucial role in shaping health care

Bachelor of Science in Nursing

- Prepares nurses to deal effectively with complex health issues relating to the individual, the family, and the community

Bachelor of Nursing

- Open to registered nurses from a college or other diploma nursing program
- Offered on a full-time or part-time basis; prepares nurses for practice within an increasingly complex health-care system

Information for Authors

The *Canadian Journal of Nursing Research* is a quarterly journal. Its primary mandate is to publish nursing research that develops basic knowledge for the discipline and examines the application of the knowledge in practice. It also accepts research related to education and history and welcomes methodological, theory, and review papers that advance nursing science. Letters or commentaries about published articles are encouraged.

Procedure: Three double-spaced typewritten copies of the manuscript on 8 1/2" x 11" paper are required. Authors are requested not to put their name in the body of the text, which will be submitted for blind review. Only unpublished manuscripts are accepted. A written statement assigning copyright of the manuscript to the *Canadian Journal of Nursing Research* must accompany all submissions to the Journal. Manuscripts are sent to: The Editor, *Canadian Journal of Nursing Research*, School of Nursing, McGill University, 3506 University Street, Montreal QC H3A 2A7. E-mail: <jtotti@po-box.mcgill.ca>.

Manuscripts

All manuscripts must follow the fourth edition of the *Publication Manual of the American Psychological Association*. Research articles must follow the APA format for presentation of the literature review, research questions and hypotheses, method, and discussion. All articles must adhere to APA guidelines for references, tables, and figures. Footnotes should not be used.

Title page: This should include author name(s), degrees, positions and affiliations, information on financial assistance, acknowledgements, and contact information.

Abstract: Research articles must include a summary of 100–150 words on the purpose, design, sample, findings, and implications of the research. Theory and review papers must include a statement of the principal issue(s), the framework for analysis, and a summary of the argument.

Text: The text should not exceed 20 double-spaced typed pages including references, tables, and figures (which are placed at the end of the text). Articles must be written in English.

References: The references are listed in alphabetical order, double-spaced, and placed immediately following the text. Author names and journal citations must be spelled out in full.

Tables and figures: Tables and figures should appear only when absolutely necessary. They must be self-explanatory and summarize relevant information without duplicating the content of the text. Each table must include a short title, omit abbreviations, and be typed on a separate page. Figures must be in camera-ready form.

Review process and publication information: The *Canadian Journal of Nursing Research* is a peer-reviewed journal. Manuscripts are submitted to two reviewers for blind review. The first author will be notified following the review process, which takes approximately 12 weeks to complete.

Electronic copy: Authors must provide satisfactory electronic files of the accepted final version of the manuscript.

Renseignements à l'intention des auteurs

La *Revue canadienne de recherche en sciences infirmières* est publiée quatre fois par année. Son mandat est de diffuser la recherche en sciences infirmières qui a trait au développement des connaissances dans la discipline et à l'analyse de la mise en pratique de ces connaissances. La revue accepte également des articles de recherche liés à l'éducation, à l'histoire de même que des articles liés à la méthodologie, la théorie et l'analyse critique qui favorisent le développement des sciences infirmières. Nous vous invitons à nous faire parvenir également vos commentaires sur les articles publiés.

Modalités : Les textes doivent être soumis en trois exemplaires, être dactylographiés à double interligne sur des feuilles 216 mm x 279 mm et être adressés à la rédactrice en chef, à la *Revue canadienne de recherche en sciences infirmières*, Université McGill, École des sciences infirmières, 3506, rue University, Montréal QC H3A 2A7. Courriel : <jtoti@po-box.mcgill.ca>. Il est entendu que les articles soumis n'ont pas été simultanément présentés à d'autres revues. Veuillez également inclure, avec la soumission, une déclaration de propriété et de cession de droits d'auteurs. Finalement, afin de garder l'anonymat lors du processus de révision, veuillez ne pas inclure les noms des auteurs dans le texte.

Manuscripts

La présentation du manuscrit doit respecter les normes du *Publication Manual of the American Psychological Association*, 4^e édition, 1994. Notamment, les figures, tableaux, illustrations et références doivent être présentés selon les normes prescrites. Il est suggéré de ne pas avoir recours aux notes de bas de page.

Page titre : Pour assurer la lecture anonyme des textes soumis, seule la page titre du manuscrit comprendra le nom, l'adresse et l'affiliation de(s) auteur(s), les diplômes obtenus ainsi que l'aide financière reçue et les remerciements.

Résumé : Un résumé d'environ 100 à 150 mots chacun doit précéder le texte. Ce résumé devrait comprendre l'objectif, la méthode, les résultats et les retombées de la recherche. Les manuscrits qui concernent la théorie et les analyses critiques doivent inclure une identification des objectifs principaux, le cadre conceptuel utilisé pour l'analyse des données et un résumé de la discussion.

Texte : La longueur totale d'un manuscrit, incluant les tableaux, les figures et les références, ne doit pas dépasser 20 pages, dactylographiées à double interligne. Les articles doivent être rédigés en anglais.

Références : Les références doivent paraître en ordre alphabétique, à double interligne et faire suite au texte. Les noms des auteurs de même que les citations de revues doivent être écrits au long.

Tableaux et schémas : Les tableaux et schémas doivent paraître seulement si nécessaire. Ils doivent résumer des données pertinentes sans redire le contenu du texte. Chaque tableau doit comprendre un titre, ne pas comprendre d'abréviations et être dactylographié sur une page à part. Vous devez remettre les originaux des schémas dessinés à l'encre de Chine et prêts à être photographiés.

Examen des manuscrits et renseignements relatifs à la publication : Lorsqu'un manuscrit est soumis pour des fins de publication à la *Revue canadienne de recherche en sciences infirmières*, le comité de rédaction entame le processus de lecture : il envoie à un minimum de deux réviseurs, spécialistes du sujet dont traite le texte, un exemplaire anonyme du manuscrit ainsi que la grille d'évaluation des manuscrits. Sur réception des évaluations des réviseurs, le comité de rédaction décide si le texte peut être publié et en informe l'auteur responsable en lui faisant part des évaluations des réviseurs. Ce processus nécessite habituellement douze semaines. Si la décision est favorable, le comité peut proposer des corrections que l'(les) auteur(s) devra(ont) effectuer avant que le texte ne soit publié.

Copie électronique : Les auteurs doivent remettre un exemplaire de leur article sur disquette, suite à l'acceptation finale de l'article.

Canadian Journal of Nursing Research
Revue canadienne de recherche en sciences infirmières

The *Canadian Journal of Nursing Research* provides a forum in Canada for the publication of research and scholarly articles relevant to nursing and health. You and your agency are invited to subscribe to this journal.

You also are invited to submit articles to the *Canadian Journal of Nursing Research*. CJNR publishes articles on clinical research, methodological issues, education research, and historical research, as well as theory and position papers that advance nursing knowledge. Information for authors and the criteria for evaluating articles can be obtained from the Managing Editor.
